

CORPORATE SOLUTIONS & CAPABILITIES

LATCH has been providing technical consulting services to clients for the past six years. Our customers return to us because of our consistently high-quality solutions as well as our innovative architecture, engineering, and functional designs.

Our core values enable us to bring unique viewpoints as we approach our work. We are always conscientious about doing right by the client.

Diversity ❖ Integrity ❖ Flexibility ❖ Workforce Empowerment ❖ Expertise

LATCH MISSION STATEMENT

- ❖ Understand and adopt the customer mission
- ❖ Deliver technical solutions that are aligned to customer goals, objectives, and budgets
- ❖ Empower customers through SETA (systems engineering and technical assistance) services
- ❖ Produce high quality, value-driven work products

LATCH SOLUTIONS

LATCH provides solution architectures, system engineering, and software development for current and emerging technologies. We excel in the areas of cloud services, cyber security, data science, DevSecOps, and microservices.

We have access to experienced, expert staff who have successfully completed enterprise-scale migration. We collaborate with a select set of businesses who have subject matter expertise and can deliver solutions that solve complex challenges.

CORE CAPABILITIES
